SPECIFICATION

On page 11, line 2 and after "...present invention.", please insert the following:

As used herein, the terms "substantially non-reactive" or "substantially inert" when used to describe a component of a wash liquor or washing fluid, means a non-solvent, non-detergent fluid that under ordinary or normal washing conditions, e.g. at pressures of -10 to 50 atmospheres and temperatures of from about 10 °C to about 45 °C, does not appreciably react with the fibers of the fabric load being cleaned, the stains and soils on the fabric load, or the washing adjuvants combined with the component to form the wash liquor.
